SATURDAY, NOVEMBER 14, 1896.

The political tension will be relieved early Monday when the S. S. Australia arrives and the "I-told-you-so's" will have a joyous inning.

The President has a right to be more than proud of his Sharpshooter Company, now sighing for more countries to conquer.

Can it be possible that the elements are quietly brewing a disturbance for Monday, the 16th? All traditions are of bad weather on that day, but the present promise is for clear skies.

The Healan Yacht and Boat Club starts out on its third year with better prospects than ever. The success of every club here is important if rowing is to maintain its popularity and friendly rivalry between the organizations always includes wishes for prosperity and progress.

Now that the matter has been taken up, it is expected that not another bit of the formerly notorious illegal entrance of Japanese immigrants into Hawaii will be allowed. The fraud and evasion are easily detected. If the broad hint of movement upon the last pauper invaders is not taken at the other end a season of punishments might not be out of order. The authorities having asserted themselves they have but firmly to carry on the work instituted.

There may be many men here capable of judging whether or no Armenian labor would be good or bad for this country. In a search for such men The Star found one. This citizen was half a year among the Armenians after being about sugar estates all his life. He is a man of ability and one without any financial interest in the matter. His opinion is favorable to the downtrodden people seeking a haven. His ideas on the subject up to date are combated alone by those connected with Asiatic immigration companies or laboring for political discord. The plan is worthy investigation and trial. There stands out the fact that other people than those now flooding in are imperatively demanded. It is the highest duty of all claiming loyalty to Hawaii to work to the end of providing diversified foreign population.

In Hawaii the public is called upon vastly too much to assist the tax assessors and collectors in their work. The property holder is quite too largely the servant of the official, whereas the exact reverse rule—without qualification—should obtain. Schedules are delivered to the householder. He fills the blanks and returns the paper. After that his tax affairs are in the hands of the assessor. His valuation may be raised—even doubled—and he will know nothing of it excepting he makes personal inquiry. Finally it is announced in a limited way that an appeal board will sit. So quietly is this done that a taxpayer when he comes to settle may sustain a very severe and annoying shock. They do all this better in the States and an improved system ought to be adopted here. When a valuation is increased or changed the householder should be notified by postal. That's inexpensive and saves time for a man of affairs, while consuming very little of the prized day of the assessor. The spectacle of citizens being compelled to journey to the Judiciary building and make inquiry about their standing is rather funny, to say the least.

Any number of school reforms might be suggested or urged. The new Bureau of Education has made some marked and beneficial departures from the old order. There is one very important matter going even beyond the school interest that The Star has been requested to bring forward. It relates to the Reformatory. This institution is admirably conducted and excepting in name is utterly unlike such places in the States. It could not be supplied with the material that is so plentiful in other countries. The incorrigible boy is an extreme rarity. It is the truant who feels the rub of the name of the institution in Palama. Few other descriptions of offense or shortcoming stand

opposite the names of inmates. Now of truancy two things may be said. In the first place there is nothing at all serious of very disturbing in "playing hooky." It is a mistake to have the prank listed practically as a crime. In the second place the parent should be called to accountability before there is dealing with the boy direct. Here there is seen at times the arraignment, trial and conviction of a bit of a boy without any appearance on the part of parents. This is very wrong indeed and it is trusted that steps will be taken to deal with the heads of houses. They can be made to realize responsibility in the premises and there will be less of discipline and mild imprisonment for boys who in many cases are not to the slightest extent, trial and conviction of a bit of down in the law.

SUPPOSED TO BE FUNNY.  
(Mavericked.)  
Willie—Are you the nearest relative I've got, mamma?  
Mother—Yes, love, and your pa is the closest relative you've got.

Mrs. Stiff—Willie, didn't I tell you to not to play with those ragamuffins from the back street?

Willie—Yes, mamma; and I wasn't playing with them.

Mrs. Stiff—Why, Willie! I saw you. Willie—No ma'am; they were playing with me.

"Poor man!" exclaimed the prison missionary, to whom the sheriff's guest had been relating a tale of woe, "your life seems to have been one unbroken series of misfortunes."

"Yes," said the fallen one, "I have had many trials."

## THE FOOTBALL FIELD.

The new rules will relegate mass plays to obscurity.

Princeton is said to have this year some exceptionally clever new men.

Yale has 60 young men who are ambitious to play football on the college eleven.

Forty candidates for the football eleven are now in active training at Princeton.

Harry Oliver, the ex-Pennsylvania guard, will coach the Denver Athletic club this season.

Jim Robinson, formerly identified with the Manhattan Athletic club of New York city, will train the University of Michigan team.

The Carlisle Indians are remarkably good players. One of their best men last year, Pierce, a fine guard, worthy of a great varsity team, has very pronounced Indian features.

The Crescent Athletic club of Brooklyn has decided to put a football team in the field this season. Harry Beecher, the veteran quarter back of the Crescent club, has decided to take charge.

Coach Woodruff of Pennsylvania has chosen 18 men to enter the training house. The remainder of the squad will be given in charge of Mike Murphy and will form the nucleus of the scrubs which he will coach.

Captain Cochran has outlined a new system of coaching, and this year Princeton will have no head coach. Captain Cochran himself will determine and direct the systems of play, while the various alumni who have signified their intention to return to coach the players will have supervision only over the men in their positions.

## A Champion Hill Climber.

Hill climbing is one of the tasks that even the most enthusiastic cyclist tries to avoid as much as possible. Adolph Michel of the Iroquois wheelmen of Jersey City would not take much interest in cycling if all the roads were as level as a billiard table, for he favors hills, and the steeper they are the better he likes them.

Michel has established a world's record for climbing. Eagle Rock, near Orange, N. J., offered the best course. There is a straight road for nine-tenths of a mile, with a 12 per cent grade, so the Manhattan Bicycle club selected this spot for its novel contest. The best previous performance was made by Dunn of this city, who in 1889 climbed the hill in 7 minutes 37 seconds. Michel's ascent occupied exactly 4 minutes 53 seconds. The Jerseyman is confident he can do even better than this next year.

## International Tennis.

"There seems to be," says William D. Orcutt, "a great probability of frequent international meetings between the tennis players of America and foreign countries at no distant date. The visits to America of E. G. Meers of 1889, of M. F. Goodbody in 1894 and of J. Pim and H. S. Mahony last year did much toward accomplishing this end, and unless the elaborate preparations being made by the Neighborhood club to secure the presence of the leading English players next summer fall through we shall undoubtedly witness the most important international tennis event we have ever had. Larned's good showing this season will do much to raise the respect of foreign players for our game and will encourage them to come over to us in order to try conclusions."

## STAND THE COLLECTORS OFF!!!

Tell them that you are going to spend all your available cash at Kerr's. By doing so you will save money, and you must take these chances when they come along.

There is no line under the sun that cannot be profitably pushed by judicious advertising, and the quicker the push begins, the quicker the profits will come.

## Timely Topics.

NOVEMBER 13, 1896.

For twelve years the  
**ASPINWALL**  
has been the prominent  
**Potatoe Planter**

of America. It will always be in the front. If you grow potatoes it will pay you to buy a Planter. In fact, Planters are indispensable. It is simply a question of dollars and cents. It pays to plant with a machine because it does not any longer pay to plant by hand. Buy a planter as you would a horse—get the most for your money. But get one with a pedigree. By this we mean one that has been in use for a number of years and has long since passed the experimental stage and has a reputation.

The Aspinwall Potatoe  
Planter

marks, drops and covers in one operation, and no other assistance is required than the one man driving. It plants whole or cut seed in a perfect line from three to nine inches deep and covers uniformly with moist or under-earth.

You can make no mistake nor run any risk whatever in buying the Aspinwall Potatoe Planter.

**W.W. DIMOND'S**

A wrinkle new to Honolulu is old blue china. It has been the rage in the United States for six months past, and in Europe for as many months before. It's the sort your great grandmothers and their children used: except that modern methods of manufacture and decorating enables the potters to make the pieces thinner and the decorations finer.

The people who want something finer than may be had in Delft, can be accommodated with "Belleek." This is a much better quality and is decorated in a more artistic manner.

For plain every day use, the Delft is the best, because it is made to wear and to use. We have full sets and single pieces of it, which will soon find their way into the homes of Honolulu. Delft is not a fad; it was used many years ago and was fashionable for a full century before we came on this mundane sphere. Its place was taken by other and Frenchier patterns; now we are back to the old German windmill pictures. Come and see them.

**"May the Best Man Win"**

That is what we say of Political Candidates, and that's what you ought to say of shoe dealers. LET THE BEST MAN WIN. The best shoe man is the one who sells you the best shoes at the most reasonable prices—the one who takes the most pains to fit you properly—the man who rights wrongs the most cheerfully. May the best man win—and let us hope you'll buy your shoes from him.

Specifications of the above can be seen at the office of the Commissioner of Agriculture in the Judiciary Building.

Tenders will be received up to 12 o'clock noon on Thursday, the 19th of November, at the office of the Commissioner of Agriculture.

The Minister of Foreign Affairs does not bind himself to accept the lowest or any bid. WM. O. SMITH, Minister of Foreign Affairs Ad Int. Foreign Office, November 13th, 1896.

BY THE PRESIDENT OF THE REPUBLIC OF HAWAII:

## A PROCLAMATION.

A year of peace and prosperity calls for gratitude to the Ruler of Nations. Freedom from disaster and pestilence, from local discord and foreign menace during the past year has given the country needed opportunity for the development of policies looking to the furtherance of public interests.

Favorable seasons have rewarded industry and enterprise with bountiful returns.

In view of these and countless other blessings which have been bestowed upon us, I, Sanford B. Dole, President of the Republic of Hawaii, recommend that Thursday, the 26th day of this present month of November, be set apart as a day of National thanksgiving to Almighty God, and of prayer for the righteousness that exalteth a nation and the national strength that cometh from character in the individual.

(Signed) SANFORD B. DOLE.

The building papers are 1, 2, 3, and 4 ply. They come in rolls, each roll containing 1000 square feet. They are water proof, acid and alkali proof and vermin proof. A house lined with building paper is far cooler than one that is not. There is also a cheaper grade of paper adapted for use under matting keeping out insects.

HONOLULU, July 29th, 1895.

MESSRS. W. G. IRWIN &amp; Co., LTD.

GENTLEMEN:—In reply to your inquiry as to how the Ideal Roof Paint you sold me lasted; I would say that I painted the roof of my house 12 months ago with your Red Ideal Roof Paint, and I find it is as fresh and bright in appearance today as when first applied; looking as well as others lately painted with other paints. I am more than satisfied.

J. G. ROTHWELL.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. &amp; B. Paint and Portland Cement.
